Dear Resident / Property Owner,

***IMPORTANT INFORMATION RE: SOUTH ROAD / ANZAC
HIGHWAY UNDERPASS PROJECT***

As previously advised, the Department for Transport, Energy and Infrastructure (DTEI) has contracted several utility providers to undertake service relocation works prior to major construction works of the underpass commencing.

The first services to be relocated from South Road near ANZAC Highway will be telecommunications infrastructure. Telstra has been contracted by DTEI to relocate its existing infrastructure and these works are anticipated to commence in late May / early June 2007 and continue at various locations over a period of approximately six months.

The nature of these works will involve construction activities that will result in temporary road and footpath restrictions during periods of varying duration. DTEI and Telstra will be working together to minimise any inconvenience these works may cause residents and you will be advised of the extent and timing of activities in your area closer to the works commencing in your street.

Streets which will be most affected by these works at some point during the six months period of activity will include:

- Forest Street (to Park Street) Glandore
- Park Street Glandore (from Forest Street to ANZAC Highway)
- Selby Street Kurralta Park (from ANZAC Highway to Mortimer Street)
- Mortimer Street (between Selby and Beauchamp Streets) Kurralta Park
- Beauchamp Street (from Mortimer Street to Hare Street) Kurralta Park
- Hare Street Kurralta Park
- Berkley Avenue Everard Park

- Hillsley Avenue (from the corner of Berkley Avenue to Orchard Avenue) Everard Park
- Orchard Avenue Everard Park

Some works will also be necessary on South Road and ANZAC Highway around the intersection during this period; however no major delays are expected.

The majority of works will be undertaken during day time hours and Telstra will be working to minimise any potential disruption to telephone services. Prior to works commencing you may observe Telstra vehicles in your area undertaking some preliminary investigations of the works area.

Again, I wish to assure you that you will be provided further information about these works prior to them commencing.

If you have any queries or require further information please contact the project team on the Community Enquiries Line 1300 794 899.

Yours sincerely,

Paul Gelston
Project Director
