Dear Resident

IMPORTANT INFORMATION PLEASE READ

SOUTH ROAD UPGRADE / ANZAC HIGHWAY UNDERPASS PROJECT –TEMPORARY ACCESS CHANGES TO MARLESTON AVENUE ASHFORD.

I wish to advise you that in preparation for the completion of the northbound entry ramp (new access slip lane from ANZAC Highway near the Emergency Veterinary Hospital to South Road near Tennyson Street) some temporary traffic restrictions will be implemented which will affect Marlestone Avenue.

What temporary access changes will be made to Marlestone Avenue?

- From Tuesday 25th March 2008 until the end of April 2008 (approx.) – **no right turns into Marlestone Avenue at South Road will be permitted.** Right turns out of Marlestone Ave will still be possible.

What works will be happening and during what times?

General earthworks including excavation, pavement and asphaltting works will be undertaken during normal work hours from 7am to 5pm Monday to Friday from March 31st until the end of April 2008 (approx). These works are being undertaken to complete the new northbound entry ramp and tie-in to South Road near Tennyson Street.

In preparation for these works, the northbound traffic lanes on South Road will be modified slightly from Tuesday 25th March 2008, making it unsafe to make right hand turns into Marlestone Avenue from South Road for the works period.

Construction works will be managed to ensure that any disruption to residents is minimised.

What will happen to Bus Stop 4a?

Bus Stop 4a on South Road will move from its current location near Tennyson Street, to north of Hare Street from Tuesday 25th March 2008. The Public Transport Division has been consulted about this arrangement.

How will traffic on South Road be affected?

Two lanes of traffic on South Road in both directions will be maintained during peak hours. Temporary lane closures within the vicinity of the Tennyson Street works may be implemented

at other times while works are in progress. Pedestrian access from Tennyson Street onto South Road will be maintained at all times around the work site.

Traffic signage, including VMS (Variable Messages Signs) will be in place to provide advance warning to motorists in the lead up to the works occurring. Speed limits will also apply.

The City of West Torrens has been consulted and Emergency Services notified of the access changes to Tennyson Street.

A detailed Stage 2 Construction Plan, outlining traffic arrangements for the following 12 months period will be included in the next Community Update, due to be distributed in May 2008.

Please call the Project Enquiry Line on **1800 334 439** or visit the website www.adelaideconnect.com.au to make an enquiry or request further information.

Yours sincerely
ADELAIDECONNECT
